3m³ - 5m³ Tanks

Conder Septic Tanks in Reinforced HDPE for Concrete Backfill and **NEW** Super Reinforced for Granular Backfill

Premier Tech Aqua's range of Low Profile Conder Septic Tanks is the perfect solutions for domestic applications where mains drainage is unavailable.

Advanced Technical Qualities

Reduced installation and maintenance costs

The highly successful range of Low Profile Conder Septic Tanks offers some of the most advanced technical design qualities in the industry.

- Built-in impingement pre-filters that prevent suspended solids from entering the external pipework and drainage field.
- Uniquely designed for a shallow dig to enhance performance durability.
- Reduced installation and maintenance costs.
- Durable polyethylene structure and automatic outlet cut off when cleaning of the filter takes place.
- Lockable pedestrian access cover and variable invert level.
- Fully CE approved and tested to EN12566-1.

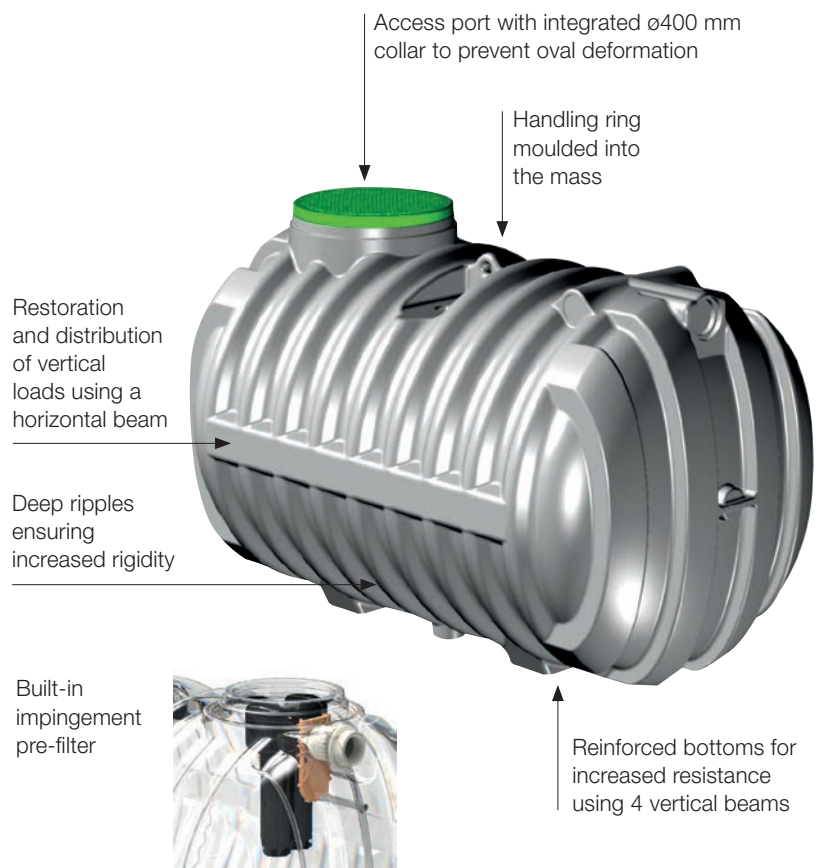

For further information or specifications on this or any other Premier Tech Aqua products, please contact our Sales Team on the below details.

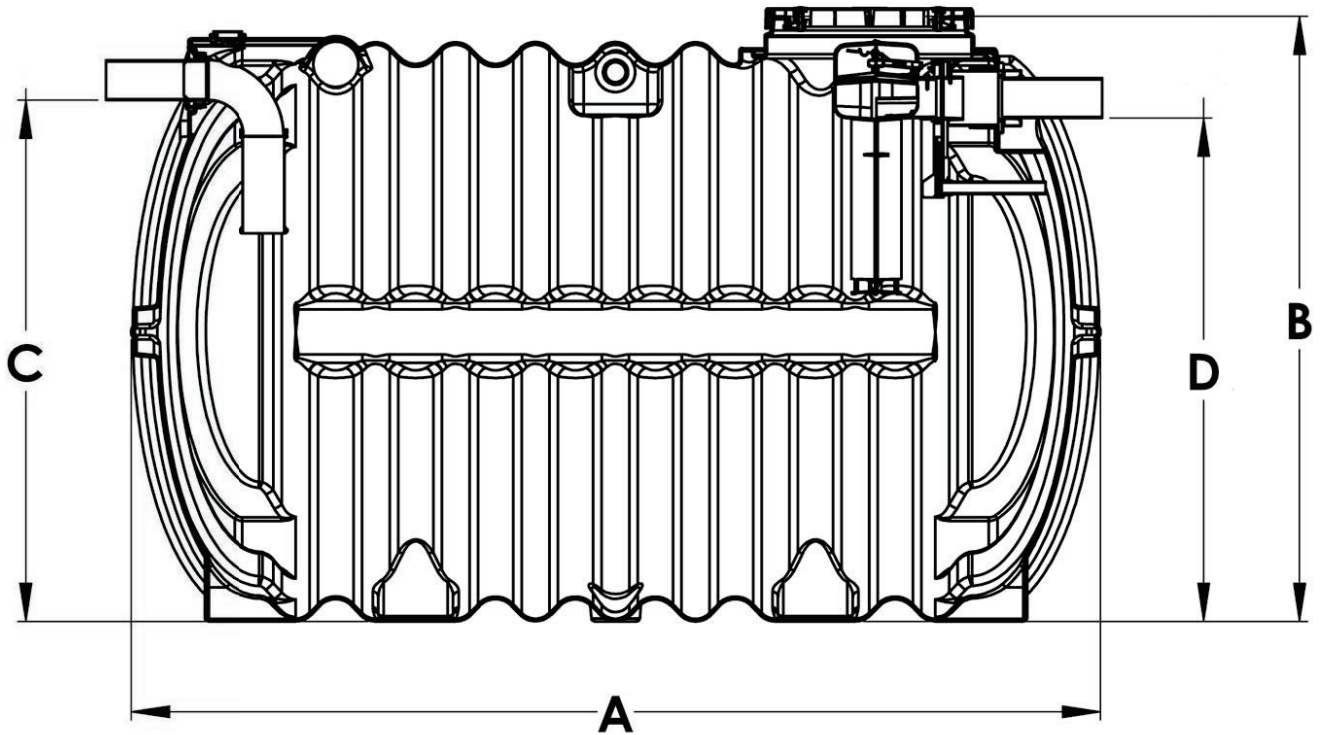

Operating Principle

The septic tank collects all of the domestic wastewater and traps solids. The built-in pre-filter installed at the outlet traps coarse particles.

Commissioning use and maintenance

Follow the instructions provided in the Installation and Operating Manual (delivered with each septic tank and/or provided upon request).
